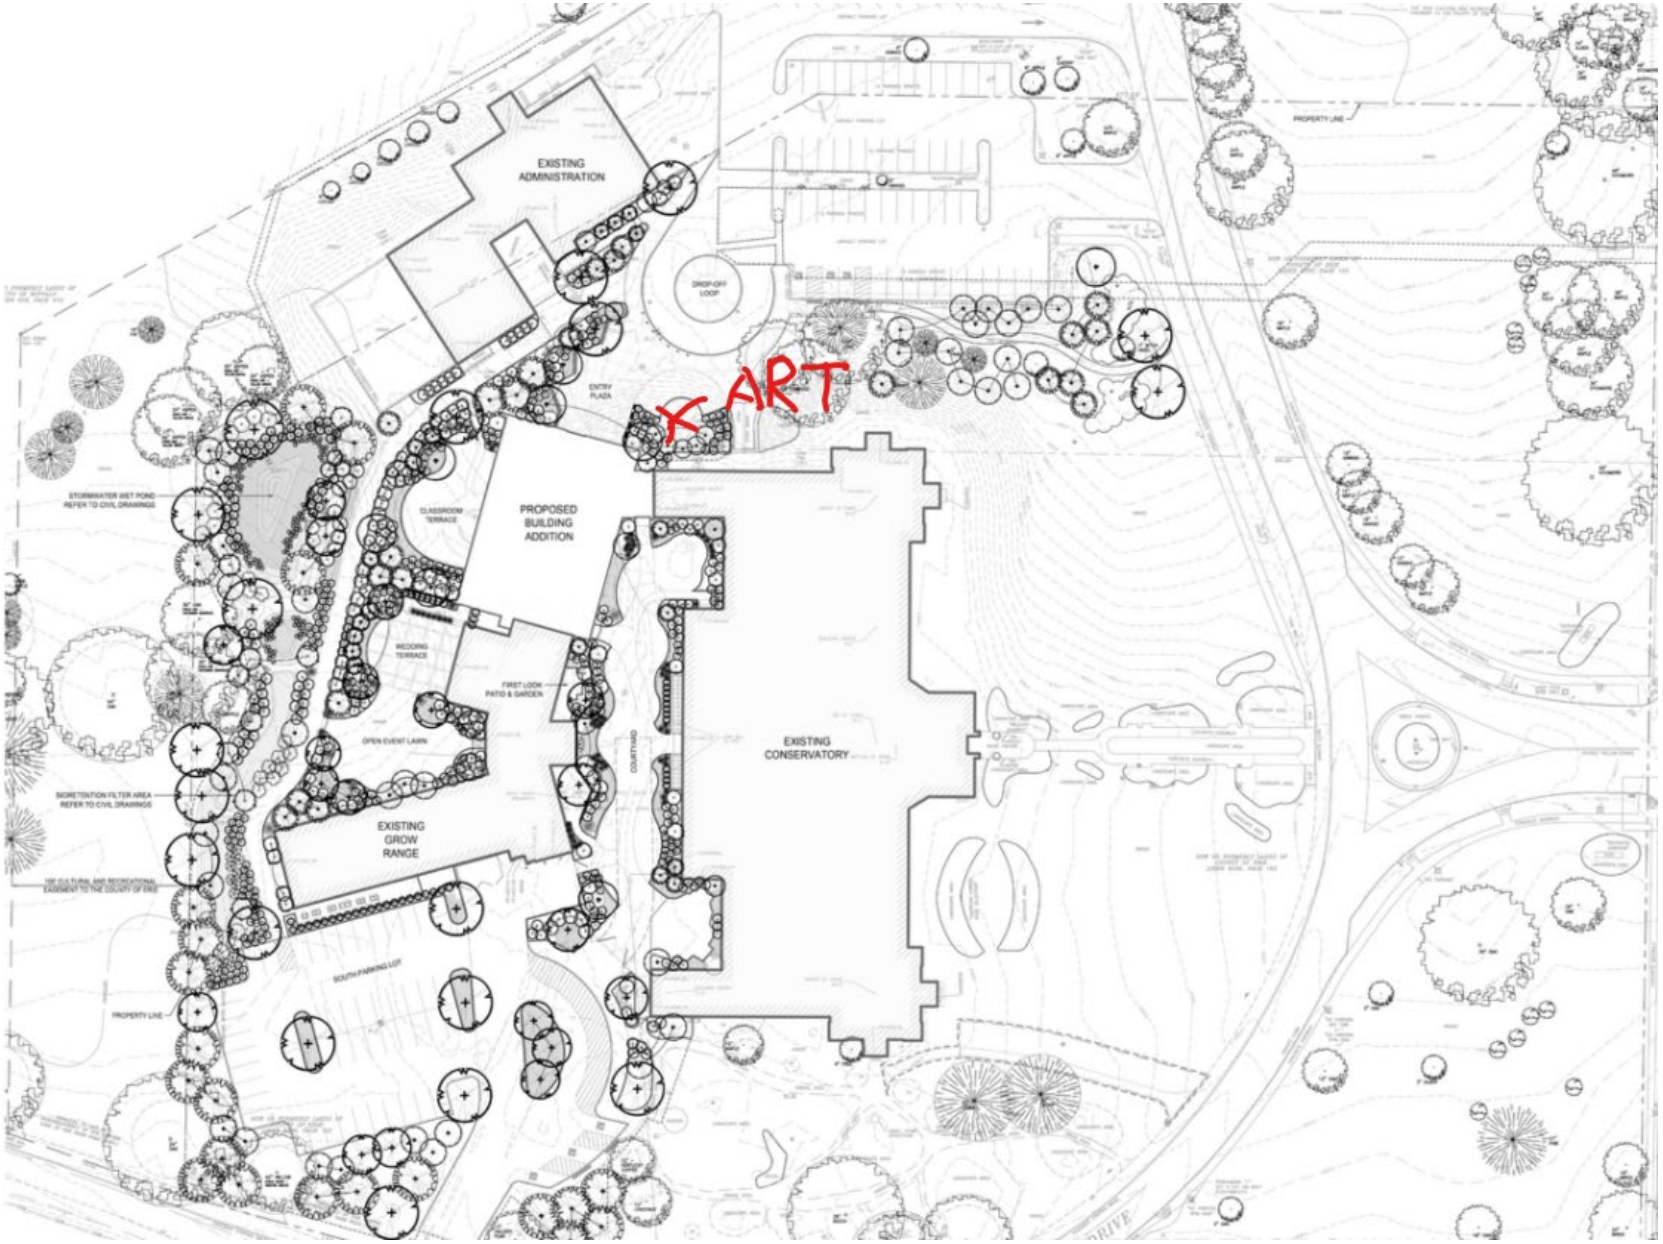
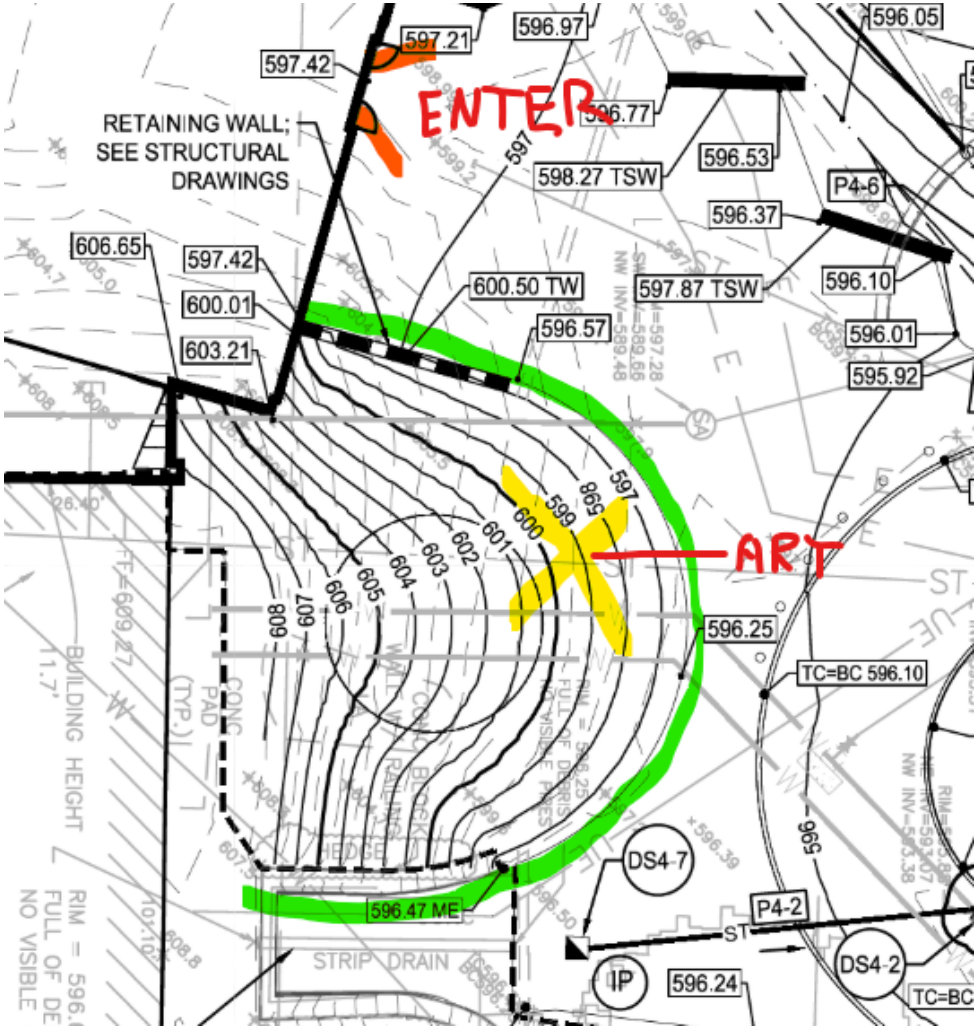
Buffalo & Erie County Botanical Gardens Site Plans

Overall Landscape Plan



Art Location 1



The proposed location for the art installation is adjacent to a hill, which will be landscaped with the following plantings:

Bloodgood Japanese Maples

Autumn Moon Japanese Maples

Autumn Brilliance Serviceberry

Heritage Birch

Hydrangeas

Rhododendrons

Additional perennials and annuals to fill in remaining areas

These selections are not expected to grow large enough to obstruct views of the conservatory. The overall planting design is intended to provide visual interest and color throughout the year.
