

# “\$100,000 Club” Review Completed

*Soaring overtime, skyrocketing health care costs, and paying 67% of an employee’s salary in fringe benefits leads to 723 workers costing taxpayers more than \$100,000 per position*

(Buffalo) –Erie County Comptroller Stefan I. Mychajliw announced the completion of a review of personnel costs that shows taxpayers spent \$100,000 or more to pay 723 full-time employees for salaries, benefits, and overtime. Data was compiled from 2012 payroll records.

That means out of Erie County’s 4,187 full-time employees, almost 20% of Erie County’s full-time workforce costs taxpayers more than \$100,000 each to fund. Personnel costs constitute nearly \$326 million, which is 29% of the entire Erie County budget.

One of the goals of the review is to assist the Legislature and County Executive in identifying the negative impact of personnel and overtime costs, and have a better understanding of how even low-paying salaries can bust budgets with costs of more than \$100,000 each. Some of the findings include:

- **723 Erie County employees cost taxpayers \$100,000 or more in salary, benefits, and overtime**
- Of those workers in the “\$100,000 Club” 79% received overtime pay
- **Overtime exceeded 50% of the base salary for 219 workers**
- A total of 36 workers doubled their base salary in overtime
- **One Deputy Sheriff-Officer earned 186% of his base salary in overtime, while another earned 170%**
- The two Deputy-Sheriff Officers earned \$94,923 and \$84,485 respectively in overtime
- **One registered nurse earned 157% of their base salary in overtime, racking up \$85,301 in overtime**
- The lowest paid employee on the “\$100,000 Club” list earned \$34,962
- **Nine workers in the “\$100,000 Club” earned base salaries in the \$30,000 range**

Based on the findings of this “\$100,000 Club” review, overtime costs across Erie County government and how it negatively impacts the budget will be placed on the Erie County Comptroller’s Office 2013 Audit Plan.

The “\$100,000 Club” review included the cost of salaries, fringe benefits, overtime, bonuses paid to workers, arbitration and grievance awards, and accrued time off cash-outs for each Erie County employee.

“It is possible to reduce personnel, make tough cuts, and put a significant dent in budget gaps. County leaders should review personnel and overtime costs first, before attempting to hurt families with potential property tax increases. Taxpayers need to be protected above all else,” said Comptroller Mychajliw.

Release of this audit comes on the heels of the Erie County Legislature passing Comptroller Mychajliw’s “Reform Plan” that cuts what could be considered lower-level patronage positions with less stringent civil-service requirements, adds professional accountants, and reduces his own budget by \$98,125.

March 11<sup>th</sup>, 2013

Honorable Erie County Legislature Chairwoman Betty Jean Grant  
Erie County Legislature

Re: Number of Employees Costing Taxpayers Over \$100,000 in Salary and Benefits in 2012

Dear Chairwoman Grant:

This year our county faces numerous fiscal challenges that will require difficult yet necessary choices to keep the budget balanced. Erie County Executive Mark C. Poloncarz's revised four-year plan reports out-year budget gaps of \$25.4 million. In response to the County Executive's plan Erie County Fiscal Stability Finance Chairman Mr. Brian Lipke said:

*"We're looking for the county officials to work cooperatively to identify realistic, implementable gap closers through various means to close potential shortfalls **without overburdening tax payers** or jeopardizing county services."<sup>1</sup>*

We interpret this to mean that Mr. Lipke has a desire to protect homeowners from potential future property tax increases and encourages us to find ways of improving efficiencies and reducing costs as a means to reduce this gap.

Since personnel costs constitute 29% of the entire Erie County budget I requested a compilation and analysis of how many Erie County employees cost taxpayers more than \$100,000 in salary and benefits for the payroll year of 2012.

Our analysis revealed that 723 out of 4,187 full-time Erie County employees had total compensation and benefits that exceeded over \$100,000, representing 18% of our full-time workforce. A listing of the employees by job title along with their total compensation for the year can be found in Appendix 1.

The data we are reporting is, quite frankly, eye opening. I do believe the information in this report can be useful to both the County Executive and Legislature as a guide in formulating the

2014 budget when painful but necessary personnel adjustments need to be made to close significant gaps.

This report not only highlights high personnel costs that negatively impact the budget, but should serve to help gain a better understanding of how employees with lower paying salaries can cost taxpayers more than \$100,000 when overtime and benefits are included.

We are concerned at the high amount of overtime across the board within Erie County government. Three employees earned **over 150%** of their base salary in overtime - two Deputy Sheriff Officer's at the Erie County Holding Center earned 186% and 170% of their base salaries on overtime, while a Registered Nurse working in the Correctional Facility Medical Services Division of the Health Department earned 157% of her base salary in overtime.

Based on the alarming amount of overtime paid to some Erie County employees, we are now placing an Overtime Audit on our administration's 2013 Audit Plan.

Of the 723 employees with over \$100,000 in total compensation, 565 (79%) received some payment in the form of overtime. Overtime exceeded 50% of the employee's base salary for 219 employees. 36 of these workers more than doubled their salaries through overtime.

Of the 36 employees, 33 of these workers are Correction Officers or Deputy Sheriff-Officers in the Jail Management Division, two are Registered Nurses working in Correctional Health Services, and one is a Deputy-Sheriff Criminal in the Community Programs Division.

Table 1 on the following page breaks down the number of employees by department with total compensation greater than \$100,000:

<sup>3</sup> Employees that changed departments during the year are included in the department they were employed by as of December 31, 2012.

## Analysis by Department

### Central Police Services – Forensics Laboratory

Sixteen of the 23 budgeted full-time employees<sup>4</sup> in the Forensic Laboratory (CSEA Salary Grades of 11 through 15) received total compensation of greater than \$100,000 in 2012. All sixteen of these employees received overtime in amounts ranging from \$1,850 to \$48,273 (Director of the Forensics Laboratory). The overtime received by these sixteen employees exceeded \$300,000. Grants funded \$250,000 of the overtime for the Forensics Laboratory, with the general fund overtime for the entire Central Police Services Department for 2012 budgeted at \$4,000. We believe that further review of overtime in the Forensics Laboratory is warranted.

### Health Department

Of the 42 employees from the Health Department that received total compensation of greater than \$100,000 in 2012 ten are employed in the Correctional Health Division (one Senior Nurse Practitioner, one Head Nurse – Holding Center, six Registered Nurses, and two Correctional Facility Medical Aides).

*Table 2 – Overtime as a Percentage of Base Salary for Correctional Health Employees*

	Base Salary	Overtime	Overtime as % of Salary	Other Pay <sup>5</sup>	Fringe Benefits	Total
Registered Nurse (NYSNA)	\$54,053	\$85,031	157%	\$8,298	\$50,606	\$197,988

Senior Nurse Practitioner (NYSNA)	\$53,970	\$14,092	26%	\$4,175	\$28,231	\$100,469

Additionally, the following nurses are assigned to cost centers other than Correctional Health Services but worked a significant amount of overtime in this area.

<sup>4</sup> Five of the positions are funded through the County's general fund. The remaining eighteen positions, plus an additional two part-time positions is partially to fully-funded through grants from New York State and the Federal Government.

<sup>5</sup> Includes Shift Differentials, Charge Nurse Differential, Preceptor Differential, NYSNA Stipend, Field Training Officer Differential, and Uniform Allowance.

<i>Total</i>	\$63,858	\$19,618	31%	\$2,925	\$36,364	\$122,765

We believe that further review of overtime in the Correctional Health Services division is warranted.

### Parks

Six Parks Department employees earned more than \$100,000 in total compensation in 2012. Four of the employees are General Crew Chiefs Parks (AFSCME grade 11); one is a Greens keeper (AFSCME grade 10, and one a Parks Maintenance Worker II (AFSCME grade 5). Their total overtime ranged from 22% to 72% of their total base salaries.

A concurrent review of budgeted positions has shown that the number of seasonal employees in the Parks Department has decreased from fifty-eight in 2008 to twenty in the 2013 Budget (note: this does not include the County employees that maintained the City of Buffalo Parks until 2009).

We believe further review of overtime in the Parks Department is warranted.

### Department of Public Works – Highways

Eighteen of the department's employees had total compensation of greater than \$100,000 in 2012. Sixteen of these employees received payment for overtime during the year, including the Deputy Commissioner.

Table 4 – Overtime as a Percentage of Base Salary for Highway Employees

Senior Civil Engineer	\$80,489	\$2,443	3%
Associate Civil Engineer	\$90,591	\$0	0%
Principal Civil Engineer	\$100,143	\$0	0%

We believe that further review of overtime is warranted in the Department of Public Works – Highways Division.

#### Division of Sewer Management

Twenty-six employees of the Division of Sewage Management received total compensation of greater than \$100,000 in 2012. Five employees had overtime in excess of \$5000:

- Sewer Repair Supervisor - \$19,342
- Sewer Repair Supervisor - \$16,719
- Senior Wastewater Treatment Plant Operate - \$10,212
- Assistant Sewer District Manager - \$7,620

We believe that further review of overtime is warranted in the Division of Sewage Management.

## Social Services

Fifty-five employees in Social Services received greater than \$100,000 in total compensation in 2012. The employees are assigned to the following divisions:

*Table 5 – Social Services Employees With Total Compensation Greater Than \$100,000 by Division*

We wholeheartedly understand that while certain services are mandated that Erie County must provide residents, **the manner in which they are delivered by the number of employees we place on the public payroll is not.** Our office is in the beginning stages of an audit within the Department of Social Services.

It is our recommendation that the Legislature give serious deliberation to determine whether or not a number of higher-paid, upper management positions should be reduced, while strengthening lower paid yet critically important “front-line” employees that directly provide services to the neediest residents of Erie County.

The number of positions would either be the same or reduced, while at the same time costs would go down and delivery of services could be improved.

Often the misguided argument is made that since certain Social Service positions are paid for with mostly state and federal funds it would not “save” money in the local share of the budget to reduce positions. The County Share of positions in the Department of Social Services ranges from 0% to 100% for salaries, overtime, and fringe benefits.

This review clearly shows that notion is false, based on the fact that Erie County taxpayers are responsible for fringe benefits that amount to a whopping amount of approximately 67% of employees’ base salaries. The County is responsible for at least a portion of the salary, overtime, and fringe benefits expense for many of the department’s employees.

We recommend a review of overtime in the Community Medicaid and Child Protective Services divisions.

### **Jail Management Division**

Nearly 42% or 301 employees earning over \$100,000 in compensation during the course of 2012 were employees of the jail management division. Overtime for these 301 employees was equivalent to 60% of their total base salaries. **Individual overtime ranged from 5% to 186% of base salaries.**

In September 2011, this office released a review of overtime in the Jail Management Division. At that time former Comptroller and now Erie County Executive Mark C. Poloncarz recommended that this division hire an additional sixty-seven Correction Officers (Erie County Correctional Facility) and Deputy Sheriff – Officers (Erie County Holding Center).

The New York State Commission of Correction (COC) also completed a staffing analysis of the two facilities that was released in April 2012. The COC requires the hiring of an additional seventy-two security personnel as follows:

- (2) Correction Captains / Captain – Officers
- (1) Correction Lieutenant / Lieutenant – Officers
- (25) Correction Sergeants / Sergeant – Officers
- (44) Correction Officers / Deputy Sheriff – Officers

The COC mandate requires the County to staff the facilities with a total of 747 security personnel. The additional of the 72 positions will be phased in over several years. The 2013 Budget added 33 security positions to the division.

Due to the recent review of overtime in this division, and the likely impact of the additional positions on overtime, we recommend that Sheriff Timothy B. Howard and his staff closely monitor overtime in Jail Management once all of the required positions have been added to the budget and have been filled.

## Sheriff's Office

Fourteen percent or 102 employees that received total compensation greater than \$100,000 in 2012 work in the Sheriff's Department. The positions these employees held were:

- Administrative Assistant
- Captain
- Chief
- Deputy Sheriff
- Deputy Detective
- Detective Deputy
- Lieutenant
- Senior Detective
- Senior Tactical Flight Officer
- Sergeant
- Undersheriff

**All of these employees received overtime ranging from 10% of base salary to 106%. We encourage Sheriff Timothy B. Howard to closely monitor overtime costs and report to the Legislature any fluctuations or trends that could negatively impact the 2013 budget.**

## Comptroller's Office

Six of the 34 employees in the Comptroller's Office received total compensation of greater than \$100,000. Their compensation was based solely on base salary, bonuses, and fringe benefits – **none of these employees received payments for overtime in 2012. For 2012 the Comptroller's Office had an overtime budget of \$0** and a budget of \$2,500 for "Holidays Worked".<sup>8</sup>

The very first review for 2013 under my leadership was in our own office: a top to bottom review of salaries and positions in the Office of Comptroller. One recommendation from that review was to implement a reform initiative that strengthened our professional accounting staff, reduced certain positions, and reduced our annual budget.

On Thursday March 7<sup>th</sup>, 2013 the Erie County Legislature passed and adopted our reform plan that will cut our 2013 budget by \$98,125.

---

<sup>8</sup> County Offices are closed on Good Friday and Election Day that are not holidays for banks. Two employees with Cash Management responsibilities work on those days. Neither employee received total compensation of greater than \$100,000 in 2012

## Conclusion

There needs to be thoughtful deliberation given by the County Executive and Legislature to implement necessary reforms or cost cutting initiatives to reduce overtime. Our office would be pleased to work collaboratively with the administration, Personnel Department, and Legislators in identifying departments and positions where soaring overtime costs can be reduced.

We believe by conducting further analysis and reviews of overtimes in the abovementioned departments and divisions we will be able to recommend efficiencies in order to reduce overtime. Our further reviews will also make determine whether departments and divisions are in compliance with County overtime policies.

Sincerely,

Stefan I. Mychajliw  
Erie County Comptroller
