**COUNTY OF ERIE, NEW YORK
REQUEST FOR PROPOSALS (RFP)
INDIRECT COST ALLOCATION PLANS**

I – INTRODUCTION

Erie County desires to contract with an independent firm for a period of three years to develop central services cost allocation plans, indirect cost rate proposals, and maintenance-in lieu-of-rent computations. The County will provide the firm selected the option of extending the contract to cover an additional two years. Firms responding to this RFP may, at their discretion, provide price quotes for those years. Extension of the contract beyond the three initial years will require concurrence of both the County and contracting firm. The federal and full cost plans, rate proposals, and occupancy cost calculations will be based on actual or budgetary cost data, as later specified herein. Rate proposals include roll-forward adjustments determined from final costs for previous fiscal years.

II – BACKGROUND

The administration of federal grants and contracts usually requires the expenditure of resources of various organizations within county government. The Federal Office of Management and Budget 2 CFR Part 225, Cost Principles for State, Local and Indian Tribal Governments (OMB Circular A-87) was issued to meet an expressed need for a more uniform approach to the problem of determining costs of federally aided programs. The Circular provides principles and standards for determining both direct and indirect costs applicable to federal grants and contracts with state and local governments.

The charging of joint or common costs against federal grants and contracts requires the prior preparation of cost allocation plans. Erie County must annually complete a countywide central services cost allocation plan. This plan must, in some cases, be successfully negotiated with the federal cognizant agency or state agencies. All are subject to single audit. County departments must prepare indirect cost rate proposals which are subject to negotiation and/or audit by program agencies.

III – OBJECTIVE

The County desires to ensure that administrative costs incurred on behalf of the federal programs operated by the County are recovered to the maximum extent possible under current guidelines. This will require adequate documentation of these costs, justification of their benefit to federal programs, accumulation of administrative overhead, and optimal allocation to programs served. Furthermore, designated personnel should be instructed in the use and application of the plan.

IV – SCOPE OF SERVICES

A. Develop and prepare detailed federal indirect cost allocation plans for Erie County in accordance with OMB Circular A-87, based on actual financial information for each of the three years ending December 31, 2022 through 2025 (with an option of extending the contract to cover the

two additional years ending December 31, 2026 and 2027). The plan must be prepared using a computer, and must provide at least one level of cross allocations among central services.

B. Develop and prepare indirect cost rate proposals for human services agencies, which includes the Departments of Social Services, Health, and Mental Health; the Sheriff's Office; the District Attorney's Office; and any other departments/federal programs as may be required, in accordance with OMB A-87, for the years indicated in (A) above. Successfully negotiate these rates, as may be required. Provide instruction and guidance to departmental and program personnel in applying negotiated indirect cost rates, as may be necessary.

C. Develop and prepare detailed full overhead indirect cost allocation plans for internal use by Erie County. The plans must be based on budgeted costs for the years ending December 31, 2023 through 2025 (with an option of extending the contract to cover the two additional years ending December 31, 2026 and 2027), and must be prepared as soon as possible after the budget for each year has been adopted. The full overhead cost plans are to be used for selective cost and rate setting, as may be appropriate and/or required by the County.

D. Develop and prepare "maintenance-in-lieu-of-rent" analyses on a full overhead cost basis, using budgeted figures for the periods indicated in (C) above. These analyses are required to develop and present, separate from the cost allocation plans, the per square foot full occupancy cost attributable to County facilities.

E. Review the County's data collection worksheets, allocation bases, indirect cost pools, and methods of distributing costs for appropriateness, and to identify alternative methodologies which may favorably impact indirect cost recoveries.

F. Incorporate strategies and procedures previously implemented by the County that may be superior, in terms of potential recovery, to strategies and procedures that your firm would otherwise implement.

G. Instruct designated County personnel in the specifics of indirect costing, including cost analysis and cost flow structuring, statistical collection and development techniques, interviewing, plan summarization and organization, theory of computation and plan implementation. Identify available data which can be effectively incorporated into the, indirect cost allocation plans, and determine opportunities for simplifying data collection activities for future plans.

H. Monitor recoveries to ensure that all allowable recoveries are realized.

I. Identify opportunities to back claim indirect costs on grants that remain open, or to offset indirect costs against costs questioned or disallowed under audit.

J. Identify opportunities to utilize indirect costs as "matching" or in-kind costs in conjunction with federal/state programs.

K. Analyze current and proposed federally funded programs operated by the County, the contribution of central services to their operation, and the existing and potential recovery of indirect costs.

L. Identify opportunities to utilize full overhead costs for internal management and budgetary purposes, internal charging for full overhead cost-based direct billing, and as a foundation for user charge determination.

V - PROJECT DELIVERABLES

The contractor will be required to provide the following products in the performance of the contract:

A. An oral and written presentation of enhancements to the central services cost allocation plan.

B. Six copies each of the budget and actual cost allocation plans proposing costs for the fiscal years indicated herein with appropriate narrative descriptions of OMB Circular A-87 Section I and Section II services, roll-forward adjustments, if appropriate, and an exhibit for attachment to any negotiation agreement.

C. A schedule that compares the current- and prior-year total Indirect Costs by department and shows the changes from the prior year presented as an amount and a percentage. In addition, any differences in the allocation basis or sources used or other material changes in the plan from the prior year should be documented.

D. Two copies of departmental indirect cost rate proposals.

E. Two copies of the maintenance-in-lieu-of-rent computations.

VI - PERFORMANCE STANDARDS

The following performance standards will be met:

It is understood and agreed that any resulting contract shall be subject to annual appropriations by Erie County. Should Erie County fail to appropriate funds for this contract, the contract shall be terminated when existing funds are exhausted.

C. Confidentiality of Data

The contractor agrees to protect the confidentiality of files, data, and other materials provided by the County, and to restrict their use to purposes of performing this contract only.

- A. RFPs will be sent to prospective contractors.
- B. On-site visits prior to proposal submission will be permitted. Inquiries and all questions concerning the RFP should be made to Ryan Glaser at (716) 858-8132, or by e-mail at Ryan.Glaser@erie.gov.
- C. One original and two copies of the proposal will be received from each offeror in a sealed package marked: Request for Proposal – Indirect Cost Allocation Plan. Each proposal shall be signed and dated by an official authorized to bind the firm.
- D. All proposals must be received by the County no later than 3:00 pm EDT on August 4 2023.
- E. On the date specified for return, the proposal from each responding firm will be opened and the name of the firm recorded. Each proposal will be checked to determine if it is complete and meets the requirements of this RFP.
- F. At its option, the evaluators may request oral presentations or discussions with any or all offerors for the purpose of clarification or amplification of the material presented in any part of the proposal. However, offerors are cautioned that this provision is not mandatory; therefore, all proposals should be complete and concise and reflect the most favorable terms available from the offeror.
- G. Upon completion of the proposal evaluation process, the "not-to-exceed" cost offered will then become a matter of public record. Interested parties are cautioned, however, that these costs and their components are subject to further evaluation and possible negotiation and, therefore, may not be an exact indicator of an offeror's pricing position.
- H. Proposals will be evaluated by a County team using the following general criteria:
- Cost to the County.
 - Experience of the personnel to be assigned by the proposing firm in preparing cost allocation plans.
 - Experience of the firm regarding central services cost allocation plans.
 - Statement of understanding of work to be performed.
 - References from clients, federal negotiators, and associations attesting to the expertise of the firm and satisfaction of the clients.

Furthermore, the County may use other evaluation criteria which, in its sole judgment, are necessary for selecting the best offeror.

I. Offerors are cautioned that this request is a request for offers, not a request to contract, and the County reserves the unqualified right to reject offers for any contract when such rejection is deemed to be in the best interest of the County.
