Re: Outcomes Based Budgeting  
Funding for County Public  
Benefits Agencies.  
(Int.27-8)

WHEREAS, There are approximately 1400 certified not-for-profit organizations in Erie County, and

WHEREAS, County Public Benefit funding provides supplemental financial assistance to not-for-profit organizations and agencies, thereby supporting human and community service delivery in Erie County, and

WHEREAS, While Erie County currently requires considerable documentation to justify program and agency funding, the changing nature of not-for-profit funding requires regular review of the county's public benefit funding program to insure maximum accountability, efficiency and outcomes evaluation, and

WHEREAS, Today's not-for-profit organizations need to exchange ideas and share resources in order to promote an understanding of the unique and important role of not-for-profits in advancing regional economic growth and well being, and

WHEREAS, To that end, the United Way of Buffalo and Erie County in 1996 adopted a "outcomes based investments" criteria for funding member agencies, and

WHEREAS, Unlike the traditional ways the United Way reviewed an agency's funding application, independently, and on an individual basis, the "outcomes based investments" concept encourages agency collaboration, thereby promoting maximum accountability and service outcomes, and

WHEREAS. For example, under the "outcomes based investments," United Way funding is in generally categorized into several human service areas, including Basic Needs and Economic Opportunity, Family Support and Safety, Neighborhood Based Services and Wellness Programs. and

WHEREAS. The "outcomes based investments" criteria promotes collaboration and evaluates funding requests on an applicant's ability to work cooperatively, with other United Way agencies, to produce program outcomes effectively and efficiently, and

NOW, THEREFORE, BE IT

RESOLVED. That the Erie County Legislature does hereby request that the County Budget Director report on the feasibility of instituting the "outcomes based investments" criteria, or a variation of the same, for Erie County public benefit agency funding, and be it further

RESOLUTION NO. 477      Re:    Revitalization    of    Border  
   Communities    Between    the  
   Core City and Inner Ring  
   Suburbs. (Int.27-9)

WHEREAS, The health of the overall region depends on the strength of its urban core and inner ring suburbs, coupled with sustainable development of the edge suburbs, and

WHEREAS, One damaging trend of urban sprawl is the exodus of population from the aging housing stock of the core and inner rings outward to new housing on the edge, leaving vacant and dilapidated housing in its wake, and

WHEREAS, Regionalist David Rusk, in his presentation at the Legislature on August 1, 1997 stated, "The First Rule of Urban Sprawl: The greater the rate of sprawl (relative to population growth), the greater the rate of abandonment of core communities (i.e. central cities and many older suburbs)," and

WHEREAS, The aforementioned abandoning of housing weakens the property values and livability of these neighborhoods until critical mass is reached where demolition of these properties is necessary, and

WHEREAS, The demolition of these properties helps to prevent further decline of the neighborhoods by removing havens for criminal activity, as well as by eliminating one reason for others still in the neighborhoods to leave as well, and

WHEREAS, Once these properties have been demolished there is land available for new housing to be constructed, thereby providing an up-to-date, market-rate alternative to locating in the edge communities, and

WHEREAS, This inward redirection of development plays a role in stemming the tide of sprawl by effectively reusing brownfield land within the region instead of constructing on greenspace at the region's edge, and

WHEREAS, This demolition and neighborhood development is especially helpful in neighborhoods which border two municipalities, as the problems of urban blight are not limited by jurisdictional boundaries, and

WHEREAS, For all these reasons the demolition of properties and subsequent neighborhood development within the central city both benefits the urban core, the inner ring suburbs, and the edge communities, therefore making it a truly regional plan, and

WHEREAS, The City of Buffalo has undertaken an effort to demolish properties and build new, market rate housing, and

WHEREAS, The Erie County Legislature was briefed on this project in the December 9, 1997 Finance and Management Committee meeting by Buffalo Department of Community Development Commissioner Alan DeLisle, and

WHEREAS, The County Municipal Consolidation Committee determined that collaboration between the County of Erie and the City of Buffalo to demolish 71 properties within a one-mile perimeter along the Buffalo, Cheektowaga, Sloan and West Seneca municipal borders at a cost to the county of \$600,000 would be an appropriate use for a portion of the funds allocated by this Honorable Body for consolidation efforts between the County of Erie and the City of Buffalo, and

WHEREAS, Douglas Henton of the firm Collaborative Economics correctly noted at the Chautauqua Conference of Regional Governance that consolidation can be a part of collaboration, and that "a region's total assets are maximized through collaboration,"

NOW, THEREFORE, BE IT

RESOLVED, That the Erie County Legislature, following review of the City of Buffalo's housing demolition and neighborhood development plan, does hereby authorize the use of \$600,000 from 1997 County budgeted appropriations, with said funds to be drawn from the countywide contingency (DAC:110923310893), and be it further

RESOLVED, That this Honorable Body does hereby authorize Erie County Executive Dennis Gorski to enter into contractual agreement on behalf of the County of Erie with the City of Buffalo to effectuate this transfer of funds, and be it further

RESOLVED, That certified copies of this resolution be forwarded to Erie County Executive Dennis Gorski, Erie County Budget Director Kenneth Kruly, City of Buffalo Mayor Anthony Masiello, City of Buffalo Community Development Commissioner Alan DeLisle, and City of Buffalo Clerk Charles Michaux III.

Re: Support for the Patient's  
Fair Appeals Act. (Int.27-25)

WHEREAS, Currently in New York State patients are dying because their insurance company refuses to pay for the experimental treatments and drugs that their doctors are recommending, and

WHEREAS, Insurance companies are not required to cover reasonable experimental treatments even when no conventional remedy exists or when doctors conclude it is the only chance of extending a person's life, and

WHEREAS, Certain treatments such as bone marrow transplants and some forms of chemotherapy are still classified as experimental and denied by insurance companies, and

WHEREAS, Presently a patient's only right of appeal is to the very health plan that is denying care, and

WHEREAS, Patients end up spending precious time involved in a lengthy appeals process rather than devoting their time to treatment which may lead to a cure, and

WHEREAS, California recently enacted a safeguard for seriously ill patients in which a patient, who has been denied insurance coverage for a treatment recommended by their doctor, has the right to appeal to an experimental/investigational review panel consisting of three expert doctors with no financial stake in the decision, and

WHEREAS, The New York State Senate has proposed the Fair Appeals Act to protect patient rights in situations such as this, and

WHEREAS, Under the Fair Appeals Act, patients would be guaranteed an appeal within two weeks and if a majority of the doctors on the review panel determine that the treatment should be covered, the insurer will be bound by the panels decision, and

WHEREAS, Insurance companies argue this will cost them too much money, however studies show the increase would be only one-half of one percent,

NOW, THEREFORE, BE IT

RESOLVED, That the Erie County Legislature does hereby proclaim its support for "The Patients' Fair Appeals Act" (New York State Senate Bill 2887) to establish statewide health insurance standards for experimental and investigational drugs, devices, and treatments prescribed by physicians for patients with life-threatening, degenerative or permanently disabling conditions, and to establish a fair appeal process outside the patients health plan, and be it further

RECEIVE, FILE & PRINT.

Honorable Members,

I am accepting as amended the 1998 budget. I want to thank you for the important role you played in crafting this budget. It is a document that not only freezes taxes, but also spends money on important programs including crime fighting, job creation, revitalizing downtown Buffalo, and further reducing our welfare rolls.

Your unanimous, bi-partisan support of the budget is much appreciated. As you know, I have pledged to freeze County property taxes in 1999 and 2000 as well.

I look forward to working with you in the years ahead to continue our work of making our County a more competitive place to live and work. I'm proud of the work that we've already done which has earned Erie County its well-deserved reputation of being the most cost-efficient and effective urban County government in New York State.

I am committed, as I know you are, to continuing to work each and every day to provide needed services at the lowest cost possible to our 960,000 residents.

Sincerely,  
DENNIS T. GORSKI
