Re: Kreher Egg Processing Facility – Site Plan Submission

Dear Julie:

On behalf of Kreher Brothers LLC, we are pleased to submit the enclosed Site Plan Application materials. We have enclosed the following application materials for your review:

- Letter of Intent (two copies)
- Kreher Egg Processing Facility Site Plan Set (two copies, 22"x34" size)
- Architectural Rendering (two copies, 11"x17")
- Site Plan Application (two copies)
- Short Form EAF (two copies)
- Agricultural Data Statement (two copies, Signed copy should be on-file at Town)
- Engineer's Report (two copies)
- Stormwater Pollution Prevention Plan (pdf copy)
- Review Fee (\$1,300) (Delivered by Kreher Farms)

The project parcel is located at 5005 North Millgrove Road, along the east side of the road and is approximately 122 acres in size. The project parcel is located in the Rural Agricultural (RA) zoning district with tax account number 73.00-1-1.11. The proposal is to construct a +/- 92,000 square foot egg processing facility. The project anticipates 10 acres of disturbance during construction. This facility will receive egg deliveries from the main Kreher farm (located on Davison Road) and will wash/process the eggs to prepare them for distribution. The facility initially intends to operate ten (10) hours a day, five (5) days a week. The owners anticipate 60 daily employees, and the site plan provides parking for up to 76 vehicles.

If you have any additional comments, or require any additional information, please contact our office.

Sincerely,
Fisher Associates
